Carbohydrate Calculator: How Many Grams of Carbs Should You Eat?

To calculate the payment based on the current yield, just multiply the current yield times the amount that you paid for the bond (note, that might not be the same as the bond's face value). For example, if you paid \$800 for a bond and its current yield is 10%, your coupon payment is $.1 * 800$ or \$80. [7]
