Recently, in order to evaluate whether PTSD and Complex PTSD could be empirically distinguished from each other, Cloitre and colleagues performed a latent profile analysis (LPA) on assessment data from 302 treatment-seeking individuals with diverse trauma histories, ranging from single events (e.g., 9/11 attacks) to sustained exposures (e.g ...

A complex number is a number of the form  $a + bi$ , where  $a$  and  $b$  are real numbers, and  $i$  is an indeterminate satisfying  $i^2 = -1$ . For example,  $2 + 3i$  is a complex number. This way, a complex

number is defined as a polynomial with real coefficients in the single indeterminate  $i$ , for which the relation  $i^2 + 1 = 0$  is imposed. Based on this definition, complex numbers can be added and multiplied ...

EEG sleep analysis can indicate significant aspects of the timing of brain development, including evaluating adolescent brain maturation. There is a better understanding of exactly what signal is measured with EEG, compared to the BOLD (Blood-oxygen-level-dependent) imaging used in fMRI.

The science of experience he envisaged was supposed to be chemistry like: introspected experiential data were to be analyzed; the basic constituents of conscious experience thus identified; and the patterns and laws by which these basic constituents combine to

constitute more complex conscious experiences (e.g., emotions) described.

The theorems of real analysis rely on the properties of the real number system, which must be established. The real number system consists of an uncountable set  $\mathbb{R}$ , together with two binary operations denoted  $+$  and  $\cdot$ , and an order denoted  $<$ . The operations make the real numbers a field, and, along with the order, an ordered field. The real number system is the unique complete ordered field, in ...

A thesis statement is, essentially, the idea that the rest of your paper will support. Perhaps it is an opinion that you have marshaled logical arguments in favor of. Perhaps it is a synthesis of ideas and research that you have distilled into one point, and the rest of your paper will unpack it and present factual examples to show how you arrived at this idea.
