Locke on Personal Identity (Stanford Encyclopedia of Philosophy)

For centuries philosophers have struggled to define personal identity. In his 1690 work An Essay Concerning Human Understanding, John Locke proposes that one's personal identity extends only so far as their own consciousness. The connection between consciousness and memory in Locke's theory has earned it the title of the "memory theory of personal identity."

Personal Identity ... - Inquiries Journal
John Locke considered personal identity (or the self) to be founded on consciousness (viz. memory), and not on the substance of either the soul or the body. Chapter 27 of Book II of his Essay Concerning Human Understanding (1689), entitled "On Identity and Diversity", has been said to be one of the first modern conceptualizations of consciousness as the repeated self-identification of oneself.

Personal identity - Wikipedia

Locke's proposal was that personal identity consists of continuity of consciousness. One is the same person as the person who existed last week or many years ago if one has memories of the earlier person's conscious experiences. Locke's account of personal identity became a standard (and highly contested) position in subsequent discussions.
