Panasonic Air Conditioner Not Turning Off. If your Panasonic air conditioner is not turning off, the condenser coil may be dirty, the thermostat is giving wrong temperature readings, or the control board is bad and sends voltage nonstop to the compressor and fan. A dirty condenser coil is most common and should be regularly cleaned.

Cost to Install Split System Air Conditioning - HIREtrades

In cooling mode, a reverse-cycle split-system air conditioner extracts heat from the indoor air and moves it outside, via the refrigerant gas in the pipes connecting the indoor and outdoor units. The outdoor unit releases the heat and pumps the cooled refrigerant back to the indoor unit where the cycle continues.

How to buy the perfect air conditioner | CHOICE

The air inlet or outlet of the outdoor unit is blocked. Doors or windows are opened. The air filter is clogged with dust. The louver is not at the correct position. The fan speed is set to low. The air conditioner is set to the DRY or SLEEP MODE. The
