The export (quality control and inspection)

Recently, I've been thinking a lot about the proper role of the Quality function within an export compliance program. I believe there's a natural connection between Quality Control (QC) and

Export Compliance (EC), because – generally speaking – quality people are all about compliance. In manufacturing, that’s primarily product compliance.

Quality Control and Export Compliance

After a preliminary visit by the officer of Export Inspection Agency, it appoints a panel of experts to investigate the, to quality control facilities available in the unit. The panel thoroughly investigates the quality control facilities available from the stage of raw materials to packing. It submits its report to the agency.
